

1. 글의 흐름으로 보아, 주어진 문장이 들어가기에 가장 적절한 곳은?

However, such commercialization risks culturtainment becoming homogeneous and losing its original 'message' that could lead to a dilution of audiences.

The economic benefit of culturtainment makes it attractive to politicians and policy makers alike. (①) A potential increase in inbound visitor numbers coupled with their demand for related goods and services (travel, accommodation, retail) is an incentive for those within governments and authorities to work with cultural groups in order to develop celebrations and commemorations into larger and more high-profile events. (②) This could also lead to smaller non-commercial independent events being set up that would only serve to divide audiences further. (③) This is something that planners and stakeholders will need to balance against potential financial gain. (④) Changing political, social and religious landscapes will lead to the emergence of new cultures, and with them new culturtainment experiences. (⑤) Overall this is a healthy growth sector of the entertainment industry, but one that by its very nature is delicate in the face of exploitation.

* homogeneous: 동종의 ** dilution: 희석 ***
exploitation: 착취

2. the ten-thousand-hour rule에 관한 다음 글의 내용과 일치하지 않는 것은?

You've probably heard that it takes about ten thousand hours of practice to become an expert in anything — a musical instrument, a sport, chess, cooking, or a foreign language. The research by K. Anders Ericsson on this topic has been written about many times, and it was made even more famous when Malcolm Gladwell described it in his bestselling book *Outliers*. However, recently, a cohort of researchers reexamined the studies and research behind the 10K figure and said, quite dramatically, that the ten-thousand-hour rule was utter nonsense. Specifically, there is nothing particularly special about ten thousand hours, and while practice is clearly important to boost performance, other factors may play an even more important role. What are those other factors that get us to expert levels of performance? Pure innate talent? Intelligence? Luck of the draw? Perseverance? Hard work? Yes, it's all of that and more. Age, experience, and environment all play a role. In other words, there's no one certain factor that can predict or ensure mastery or optimal performance of anything.

The Hungarian-American Csikszentmihalyi has led the charge in this area of affective neuroscience research—first with his studies of elite-level athletes but later applying how optimal performance can be seen in many areas, including science, art, and music. Flow is a spectrum. It's decidedly not an all-or-nothing experience. It's about the right blend of preparation, positive self-talk, and fluidity, and much of how it's activated relates to how we are learning how to unpack anxiety, its arousal and its challenges.

* cohort: 집단 ** perseverance: 인내심

[지문출처: *Anxiety is Your Superpower : Using Anxiety to Think Better, Feel Better and Do Better* (Wendy Suzuki)]

- ① 말콤 글래드웰의 저서인 Outliers를 통해 대중적으로 더 유명해졌다.
- ② 최근의 일단의 연구자들은 1만 시간이라는 수치에 의문을 제기했다.
- ③ 실력 향상을 위해 연습이 중요하다는 사실 자체를 부정한 것은 아니다.

- ④ 타고난 지능과 인내심은 연습 시간보다 숙달에 더 결정적인 요인이다.
- ⑤ 숙달이나 최적의 성취를 보장할 수 있는 단 하나의 확실한 요인은 없다.

3. 다음 글의 밑줄 친 부분 중, 문맥상 낱말의 쓰임이 적절하지 않은 것은?

Local newspapers and magazines and discussions with embassy officials and your consultants can also be extremely helpful. Of course, members of the other negotiating team, often in social conversation, may provide important information on the prevailing ideology in the country, as well as on their own political beliefs. Understanding the other side's ideology helps you understand the other side's interests, and an understanding of interests is essential in shaping an acceptable deal.

In the old Soviet Union, a famous U.S. beverage company wanted to set up a bottling plant and distribution network. The ① prevailing ideology in the old Soviet Union at the time stressed the importance of the group over the individual and the need to develop industrial capacity at the ② expense of consumer goods. Soft drinks hardly seemed to fit the country's ideological priorities. Indeed, one government official ③ dismissed the product as a "useless drink." Eventually, the two sides struck a deal, but not on the basis that the drink would quench the local population's thirst. Instead, the U.S. negotiators ④ justified the project on the grounds that it would contribute to the country's industrial development. They restructured the project to include a heavy training component for local workers and managers, as well as a farm that would grow certain of the drink's ingredients. In addition, the company promised to make efforts to ⑤ discourage other American companies to consider investments in the country.

Americans not only believe that they themselves have no ideology, but they also tend to think that the proclaimed ideologies of other persons are not genuine. For many U.S. executives, ideological statements merely justify interests. They assume that foreign business executives and officials just parrot the ideological line to get along with their

governments, that nobody actually believes that stuff. It is dangerous to arrive at the negotiating table with that attitude.

4. 밑줄 친 premature fixation이 다음 글에서 의미하는 바로 가장 적절한 것은?

In 2012, the Yale School of Architecture held a symposium called "Is Drawing Dead?" The bold title reflects a growing sense that the architect's freehand sketch is being displaced by the computer. The transition from sketchpad to screen entails, many architects believe, a loss of creativity, of adventurousness. Thanks to the precision and apparent completeness of screen renderings, a designer working at a computer has a tendency to lock in, visually and cognitively, on a design at an early stage. He bypasses much of the reflective and exploratory playfulness that springs from the uncertainty and ambiguity of sketching. Researchers term this phenomenon "premature fixation" and trace its cause to "the disincentive for design changes once a large amount of detail and interconnectedness is built too quickly into a CAD (Computer-Aided Design) model." The designer at the computer also tends to emphasize formal experimentation at the expense of expressiveness. By weakening an architect's "personal, emotional connection with the work," a renowned American architect and designer Michael Graves argues, CAD software produces designs that, "while complex and interesting in their own way," often "lack the emotional content of a design derived from hand."

The distinguished Finnish architect Juhani Pallasmaa makes a related point in his eloquent 2009 book *The Thinking Hand*. He argues that the growing reliance on computers is making it harder for designers to imagine the human qualities of their buildings—to inhabit their works in progress.

in the way that people will ultimately inhabit the finished structures. Whereas hand-drawn sketches and handmade models have "the same flesh of physical materiality that the material object being designed and the architect himself embody," computer operations and images exist "in a mathematicised and abstracted immaterial world."

* rendering: 렌더링(컴퓨터가 가진 정보를 우리가 눈으로 볼 수 있는 그림이나 영상으로 바꿔서 모니터나 휴대전화 화면에 보여주는 과정) ** ambiguity: 모호함

[지문출처: *The Glass Cage : How Our Computers Are Changing Us* (Nicholas Carr)]

- ① the technical difficulty of modifying a finished CAD model due to its complexity
- ② the tendency to finalize a design before fully exploring creative possibilities through sketching
- ③ the intentional focus on emotional expressiveness rather than formal experimentation in digital design
- ④ the cognitive bias of overestimating the accuracy of computer-generated architectural renderings
- ⑤ the psychological resistance of traditional architects toward adopting new digital design technologies

5. 다음 글의 주제로 가장 적절한 것은?

Limited animation is a process of making animated cartoons that does not follow a "realistic" approach. The short cartoons and feature films of Walt Disney from the 1930s and 1940s are widely acclaimed for depicting animated simulations of reality, with exquisite detail in every frame. However, this style of animation is very time-consuming and expensive. "Limited" animation creates an image that uses abstract art, symbolism, and limited movement to create the same effect, but at a much lower production cost. This style of animation depends more upon suspension of disbelief to tell a story; the story exists more in the viewer's imagination. It also encourages the animators to indulge in artistic styles that are not necessarily bound to the limits of the real world. The result is a new artistic style that could not have developed if animation was solely devoted to producing simulations of reality. Without limited animation, such ground-breaking

films as *Yellow Submarine*, Chuck Jones' *The Dot and the Line*, and many others could never have been produced.

The process of limited animation also allows for animation cels to be duplicated, resulting in a lower number of separate frames per second. While the standard rate of film projection is 24 frames per second (and video projection, including VCR and DVD displays, are as much as 30 frames per second), cartoons produced through limited animation may have as few as 12, 8 or even 6 frames per second. The reduced number of frames causes the halting, "jerky" motion seen in lower budgeted TV cartoons, as opposed to the smoother flow of animation seen in most feature films and high-quality TV animation.

* acclaim: 격찬하다 ** exquisite: 정교한 *** indulge in: ~에 몰두하다

[지문출처: *The Art of Movies* (Nicolae Sfetcu)]

- ① technical limitations of realistic animation in the 1940s
- ② economic and artistic significance of limited animation
- ③ historical development of Walt Disney's animation style
- ④ psychological effects of abstract symbolism on film viewers
- ⑤ necessity of high production costs for ground-breaking films

[지문출처: *The Art of Movies* (Nicolae Sfetcu)]

- ① 1930년대와 40년대 디즈니 영화는 현실을 정교하게 묘사하여 격찬 받았다.
- ② 현실적 접근 방식의 애니메이션은 제작 시간과 비용이 많이 드는 단점이 있다.
- ③ 추상적 예술과 상징을 활용하여 제작비를 낮추면서도 유사한 효과를 낸다.
- ④ 시청자의 상상력보다 화면상의 사실적인 움직임에 더 의존하여 이야기를 전달한다.

- ⑤ 애니메이터들이 현실 세계의 제약에 얽매이지 않는 예술적 스타일을 시도하게 한다.

정답 및 해설

1) [정답] ②

[해설] 주어진 문장은 'However'와 'such commercialization'을 단서로 하여, 앞서 언급된 정부와 당국이 행사를 대형화하려는 시도(상업화)에 따른 부정적 위험성을 처음으로 제시하고 있다. ② 뒤의 문장에서 '이것이 또한(This could also) 소규모의 비상업적 독립 행사가 생겨나게 하여 관객을 더욱 분산시킬 수 있다'며 상업화의 구체적인 연쇄 반응을 설명하고 있으므로, 상업화의 위험성을 화두로 던지는 주어진 문장은 ②에 들어가는 것이 가장 적절하다.

2) [정답] ④

[해설] 지문은 연습이 성과를 높이는 데 중요하지만, 재능, 지능, 운, 인내, 환경 등 다양한 요인이 함께 작용한다고 설명하며 숙달을 예측하거나 보장할 수 있는 '단 하나의 확실한 요인은 없다'고 명시하고 있다. 따라서 특정 요인들이 연습 시간보다 더 결정적이라고 단정하는 ④는 글의 내용과 일치하지 않는다.

3) [정답] ⑤

[해설] 주어진 글은 미국 음료 회사가 구소련의 이데올로기에 맞춰 사업 계획을 재구성함으로써 협상을 성사시킨 사례를 다루고 있다. 구소련 정부는 산업 발전을 중시했으므로, 협상 타결을 위해 해당 회사는 다른 미국 기업들의 투자를 '장려하거나 설득하는(persuade/encourage)' 노력을 약속하는 것이 문맥상 자연스럽다. 따라서 ⑤의 discourage(낙담시키다, 방해하다)를 persuade와 같은 낱말로 바꿔야 한다.

4) [정답] ②

[해설] 밑줄 친 '조기 고착(premature fixation)'은 컴퓨터 렌더링의 정밀함과 외견상의 완벽함 때문에 디자이너가 설계 초기 단계에서 성급하게 디자인을 확정해 버리는 현상을 의미한다. 이는 손스케치가 주는 모호함 속에서 발현되는 탐색적이고 반성적인 과정을 생략하게 만든다는 맥락이므로, 가장 적절한 의미는 ② '스케치를 통해 창의적 가능성을 충분히 탐색하기 전에 디자인을 확정해 버리는 경향'이다.

① 복잡성으로 인해 완성된 CAD 모델을 수정하는 기술적 어려움
 ③ 디지털 디자인에서 형식적 실험보다 정서적 표현에 의도적으로 집중함
 ④ 컴퓨터로 생성된 건축 렌더링의 정확성을 과대평가하는 인지적 편향
 ⑤ 새로운 디지털 디자인 기술 도입에 대한 전통

적인 건축가들의 심리적 저항

5) [정답] ②

[해설] 주어진 글은 제작비가 많이 드는 디즈니식 사실주의 애니메이션의 대안으로 등장한 '리미티드 애니메이션'이 낮은 비용으로 효율적인 제작을 가능케 했을 뿐만 아니라, 상징과 추상을 통해 애니메이터들이 현실의 제약을 벗어난 새로운 예술적 양식을 개발하게 했다는 내용이다. 따라서 글의 주제로 가장 적절한 것은 ② '리미티드 애니메이션의 경제적 및 예술적 의의'이다.

- ① 1940년대 사실주의 애니메이션의 기술적 한계
 ③ 월트 디즈니 애니메이션 스타일의 역사적 발전
 ④ 영화 시청자에게 미치는 추상적 상징주의의 심리적 효과
 ⑤ 획기적인 영화를 위한 높은 제작비의 필요성

6) [정답] ②

[해설] 주어진 글은 문화엔터테인먼트의 과도한 상업화로 인해 원래의 메시지가 희석될 위험이 있으며, 이에 대한 반작용으로 대형 상업 행사와는 별개인 소규모의 비상업적인 '독립적인' 행사들이 생겨나 관객이 나눌 수 있다는 맥락이다. 따라서 문맥상 ②의 dependent(의존적인)를 independent(독립적인)와 같은 낱말로 바꿔야 한다.

7) [정답] ③

[해설] 빈칸 앞 문장들에서 숙달에 이르게 하는 요인으로 타고난 재능, 지능, 운, 인내, 노력, 나이, 경험, 환경 등을 나열하고 있다. 이는 어느 한 가지 요소가 절대적인 지배력을 갖는 것이 아니라 여러 요인이 복합적으로 작용함을 의미한다. 그러므로 지문 뒷부분의 "어떤 한 가지 확실한 요소도 숙달을 예측하거나 보장할 수 없다"는 진술과 일맥상통하는 ③ '어떤 단일 요소도 전문적인 성취를 보장하는 데 단독으로 책임이 있을 수 없다'가 빈칸에 들어갈 말로 가장 적절하다.

- ① 꾸준한 연습이 타고난 재능 부족을 극복하는 유일한 길이다
 ② 환경이 미래의 성공을 결정하는 가장 결정적인 요소이다
 ④ 1만 시간이라는 수치는 숙달을 예측하는 과학적 표준으로 남아 있다
 ⑤ 최적의 성취를 얻는 것은 주로 순전한 운과 기획의 결과이다

8) [정답] ③

[해설] 이 글은 상대방의 이데올로기를 이해하는 것이 협상 타결에 필수적임을 강조하며, 구소련의 산업 발전 우선주의라는 이데올로기를 파악하여 그에 부합하는 명분(산업 발전 기여)으로 사업 승인을

받아낸 구체적인 협상 사례를 소개하고 있다. 따라서 글의 목적으로 가장 적절한 것은 ③이다.

9) [정답] ②

[해설] 주어진 글에서 건축가의 자유로운 스케치가 컴퓨터로 대체되고 있다는 화두를 던진 후, (B)에서 이러한 '스케치 패드에서 화면으로의 전환'이 가져오는 창의성 상실과 초기 단계에서의 디자인 고착(lock in) 경향을 설명한다. (A)에서는 (B)에서 언급한 디자이너(He)가 스케치의 모호함에서 오는 즐거움을 건너뛴다는 점을 지적하며 이를 '조기 고착'이라는 전문 용어로 정의한다. 마지막으로 (C)에서는 '또한(also)'이라는 연결어를 통해 컴퓨터 작업이 형식적 실험에 치중하여 정서적 내용을 결여하게 된다는 마이클 그레이브스의 견해를 덧붙이며 마무리하는 것이 가장 논리적이다. 따라서 가장 적절한 순서는 ②이다.

10) [정답] ③

[해설] 리미티드 애니메이션의 정의와 경제적 이점, 그리고 이를 통해 가능해진 예술적 혁신과 프레임 수 조절이라는 기술적 특징을 설명하는 글이다. 현대의 컴퓨터 생성 이미지(CGI)가 제공하는 고화질 시각 효과를 관객들이 여전히 선호한다는 내용의 ③은 리미티드 애니메이션의 특성과 역사적 가치를 다루는 전체 흐름에서 벗어난다.

11) [정답] ④

[해설] 주어진 글은 컬처테인먼트가 정치적·경제적으로 매력적인 산업이어서 대형화되는 경향이 있지만, 무분별한 상업화는 문화 고유의 메시지를 상실하게 하고 관객의 희석을 초래할 수 있다고 경고한다. 따라서 기획자와 이해관계자들이 잠재적 경제 이익과 문화적 보존 사이에서 중심을 잡아야 한다고 강조하고 있으므로 글의 요지로 가장 적절한 것은 ④이다.

12) [정답] ①

[해설] 연습이 실력 향상을 위해 근본적이고 중요한 역할을 한다는 점은 사실이지만, 1만 시간 법칙이 근거가 부족하다고 여겨지는 이유는 전문가 수준에 도달하는 것이 다양한 내부적 요인과 외부적 요인의 결합을 필요로 하기 때문이다. 따라서 요약문의 빈칸 (A), (B)에 들어갈 말로 가장 적절한 것은 ① '근본적인 - 결합'이다.

- ② 부차적인 - 상호작용
- ③ 의무적인 - 분리
- ④ 미미한 - 통합
- ⑤ 필수적인 - 경쟁

13) [정답] ②

[해설] 지문 중반부에서 당시 구소련의 지배적인 이데올로기가 '소비재를 희생하더라도 산업 역량을 개발할 필요성'을 강조했다고 명시되어 있다. 청량

음료는 이러한 이데올로기적 우선순위에 맞지 않았기 때문에, 미국 협상가들은 이 프로젝트가 단순히 목마름을 해소하는 것이 아니라 국가의 '산업적' 발전에 기여할 것이라는 논거로 정당화했다. 그러므로 빈칸에 들어갈 말로 가장 적절한 것은 ② '산업의'이다.

- ① 정치적인 ③ 개인의 ④ 소비자의 ⑤ 농업의

14) [정답] ⑤

[해설] ⑤ 문맥상 관계대명사 'that'이 이끄는 절 내에서 선행사는 'designs'이다. 선행사가 복수형이므로 이에 호응하는 동사 역시 복수형이 되어야 한다. 따라서 ⑤ lacks를 lack으로 고쳐 써야 한다.

15) [정답] ④

[해설] 지문에서 리미티드 애니메이션은 이야기를 전달하기 위해 '불신 유예(suspension of disbelief)'와 시청자의 상상력에 더 많이 의존한다고 했으므로, 화면상의 사실적인 움직임에 더 의존한다는 ④는 글의 내용과 일치하지 않는다.
